HYVA® TIPPING
SOLUTIONS

WELCOME TO HYVA

Hyva Group is a leading global provider of innovative and highly efficient transport solutions for the commercial vehicle and environmental service industries.

The company is committed to the development, production, marketing and distribution of components used in hydraulic loading and unloading systems on trucks and trailers.

Our products are used worldwide across a range of sectors including transport, construction, mining, materials handling and environmental services providers. Hyva's portfolio comprises: Tipping Solutions (cylinders and tipping gear), Container Handling Systems (hookloaders and skiploaders), Waste Handling Systems (transfer stations, compactors and refuse collection bodies), Floors (horizontal unloading/loading floors) and Cranes (fixed and rolling).

Hyva: Your Trusted Partner.

OUR COMPANY

Founded in 1979 in The Netherlands, Hyva has significant manufacturing facilities in Brazil, China, Germany, India and Italy.

Operating in more than 130 countries the company has more than 2,000 employees around the world, encompassing 39 subsidiaries and 13 production facilities.

Hyva products are now recognised as clear leaders in their fields. Our development engineers combine a unique blend of experience and expertise. They know what works, and what will still be working in 10 years time. Hyva products are fully certified to quality standards ISO9001:2008 and ISO14001:2004.

A core part of Hyva's culture is to lead our industry by introducing new products with new ideas and new specifications. Working closely with over 25,000 customers in 130 countries offers us a huge source of knowledge and experience - and hence a unique opportunity to continuously improve the products we offer. Our local application engineers understand all the various market and legal requirements, and are therefore your key advisors for optimum product selection.

Yet Hyva is much more than its products alone. Customer care is also fundamental. As a result, our Hyva Care programme provides a comprehensive range of after-sales support services.

Hyva: The Complete Solution.

Introduction

Hyva's telescopic front-end cylinders are designed for dump trucks and tipping semitrailers. Our tipping cylinders have earned their reputation for reliability and value for money over many years with hundreds of thousands cylinders working around the world, in all weather conditions, confirming Hyva as the world leader in the production of telescopic cylinders. Hyva designs and manufactures a complete range of telescopic tipping cylinders, both for front-end and underbody applications. The Hyva cylinder is lightweight, uses less oil and therefore tips and lowers faster and is strong, stable and maintenance free.

Hyva telescopic cylinders

Hyva front-end cylinder range

The standard Hyva cylinder range includes Front-end Cylinders with

- Outer Cover (FC)
- With Eye (FE)
- Eye/Eye (FSE)
- Eye/Eye (FEE)

Tipping capacity ranges up to 90 tons. In addition to our standard features, Hyva offers options such as a double acting last stage. The piston of each front-end cylinder is hard chromed.

The standard FC-range consists of cylinders with a first stage diameter of 110 to 226 mm and a stroke ranging from 3100 to 9530. The standard FE/FSE/FEE-range consists of cylinders with a first stage diameter from 110 to 226 and a stroke ranging from 2785 to 9030. Tippers with sloping headboard generally are fitted with an FE/FSE/FEE cylinder or FC with a short cover.

Segmentation

Hyva has designed based on different requirements of different user's suitable cylinders for different application areas. Our product range is developed to withstand all conditions in the Construction, Transportation or Mining segment.

Construction and Transportation

Hyva standard Alpha cylinder with the standard operating pressure up to 250 bar, providing best all round performance through combination of reduced weight, increased tipping speed and the stability required for these application.

Mining

Hyva Heavy Duty (HD) Alpha cylinder designed to perform at high speed in heavy duty conditions. The Heavy Duty Alpha cylinders has bigger overlaps and the stop and lift faces are designed to permit exceptionally high tipping and lowering speed increases up to 50%.

Modular design

Thanks to the modular design Hyva can offer a complete range of tipping cylinders assembled to order. Our flexible manufacturing is your best guarantee for a minimum delivery time for the standard range of cylinders. The use of top quality materials keeps wear at a minimum and maintenance simple. For service no special tools are required.

Quality

All Hyva cylinders are fully tested before dispatch (pressure tests up to 1½ times working pressure). Our customers all over the world acknowledge our reliability. The ISO 9001 standard held since 1991 is your assurance of optimum quality, safety and professionalism.

After sales service

Whatever the age of your equipment and wherever it is working, Hyva's world-wide service network will support you. In case of technical trouble you will be back on the road in no time.

FC A191 - 5 - 07130 - 000 - K0343 - XX

FC	A	191	5	7130	000	K0343	XX	Cylinder type description
	A							Alpha cylinder range
		191						Effective diameter first stage
			5					Number of extensions
				7130				Total stroke in mm (pull-out incorporated)
					0			Code E1 concerning fitting to base
					0			Code E2 concerning fitting to hydraulic system
					0			Code E3 concerning fitting to body
						K0343		Closed length
							XX	Other options

Cylinder type description

- FC - front-end cylinder with outer cover
- FE - front-end cylinder with piston eye
- FEE - front-end cylinder with piston eye and bottom eye and pin
- FSE - front-end cylinder with piston eye and bottom eye
- FCE - front-end cylinder with outer cover and bottom eye

Code E1 concerning fitting to base

- 0 standard trunnion at standard position
- 2 double eye trunnion with bush (FEE)
- 4 single spherical eye (FSE)

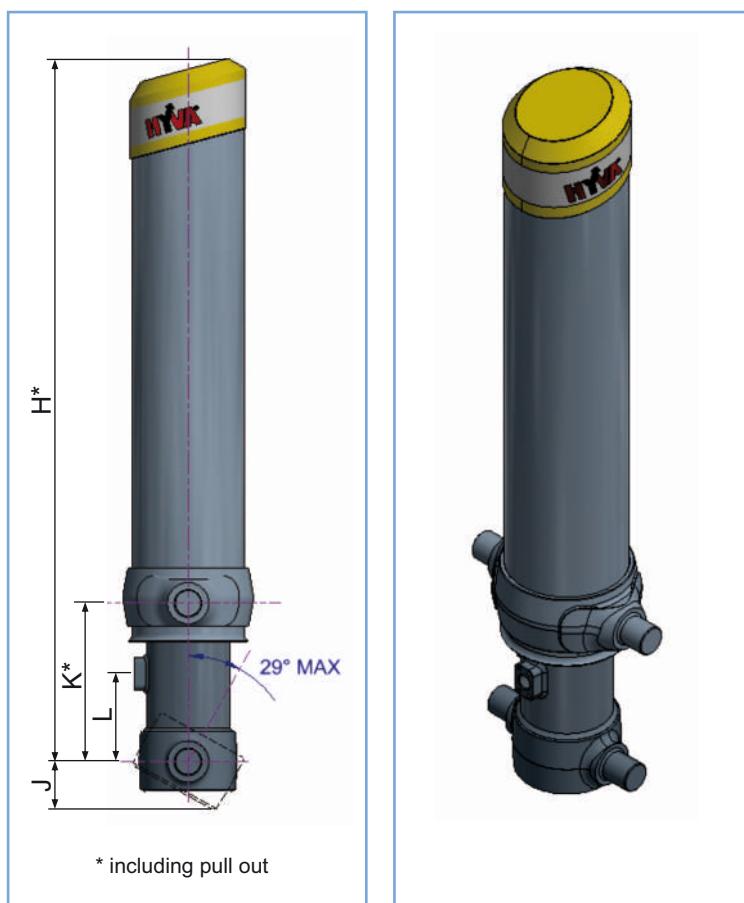

Code E2 concerning fitting to hydraulics

- 0 standard inlet at standard front position
- 1 standard inlet at non-standard front position
- 7 standard inlet at side

Code E3 concerning fitting to body

- 0 standard cover
- 1 standard spherical eye
- 2 fixed eye with bush
- 4 non standard cover
- 9 special cover or piston

Front-end cylinder with outer cover

- For all cylinders a different stroke can be requested.
- All cylinders can be ordered in Hard Chromed (HC) version.
- Below K-dimensions are available as standard.
 - K= 343mm
 - K= 486mm
 - K= 550mm
 - K= 900mm
 - K= 1050mm
- All other K-dimensions are on request.
- Below L-dimensions are available as standard.
 - L= 190mm
 - L= 290mm
- All other L-dimensions are on request.
- All cylinders incl. 20 mm pull out with tolerances of -5/+30mm.

Front-end cylinder with eye

- For all cylinders a different stroke can be requested.
- All cylinders can be ordered in Hard Chromed (HC) version.
- Below L-dimensions are available as standard.
 - $L = 190\text{mm}$
 - $L = 290\text{mm}$
 - $L = 700\text{mm}$
- All other L-dimensions are on request.
- All cylinders incl. 20 mm pull out with tolerances of $-5/+30\text{mm}$.

Heavy Duty front-end cylinders with piston eye & bottom eye and pin

- For all cylinders a different stroke can be requested.
- All cylinders can be ordered in Hard Chromed (HC) version.
- Below L-dimensions are available as standard.
 - L= 330mm
 - L= 390mm
- All other L-dimensions are on request.
- All cylinders incl. 20 mm pull out with tolerances of -5/+30mm.

Brackets and cradles

FC/FE 110 (narrow cradle)

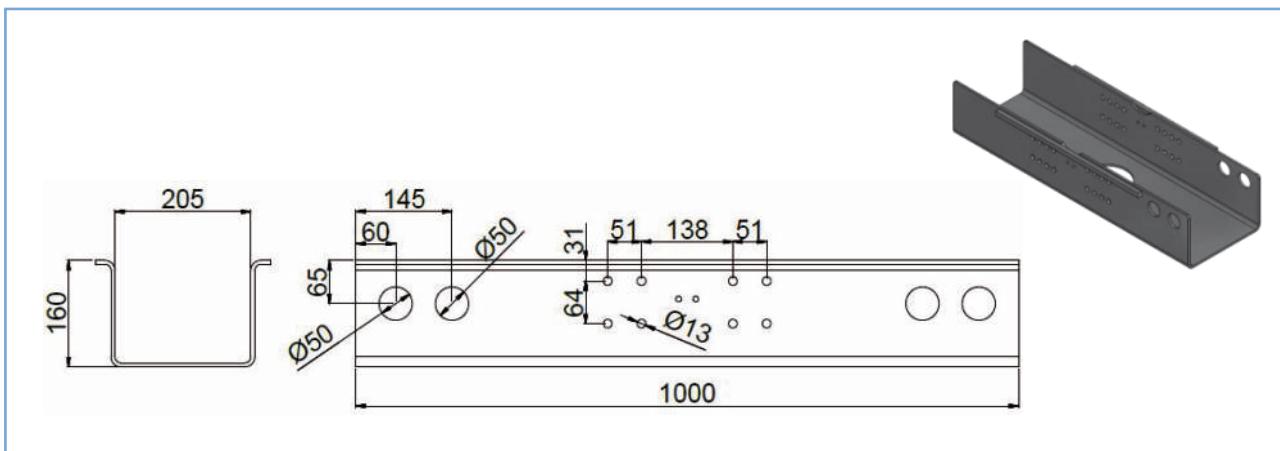

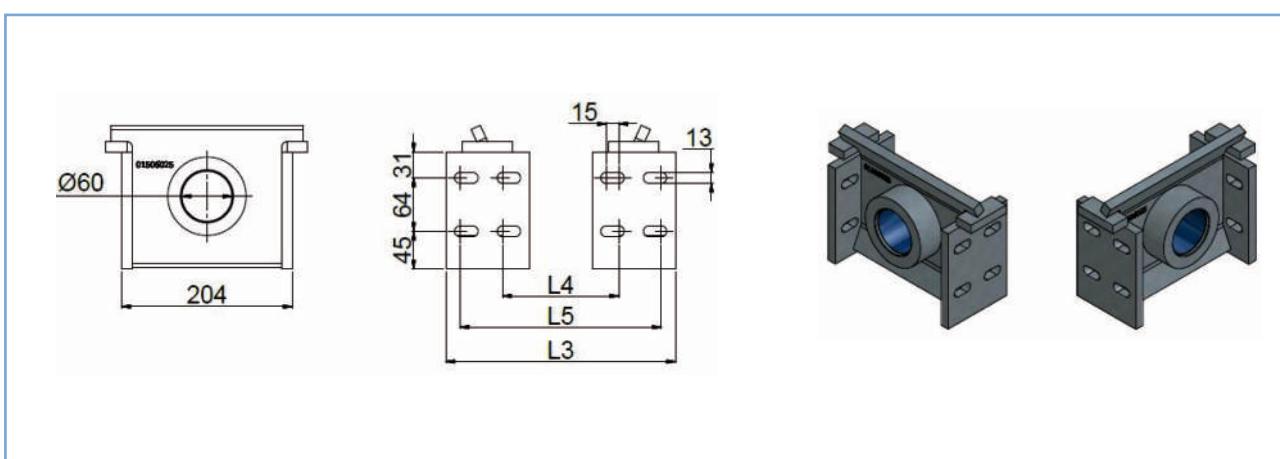

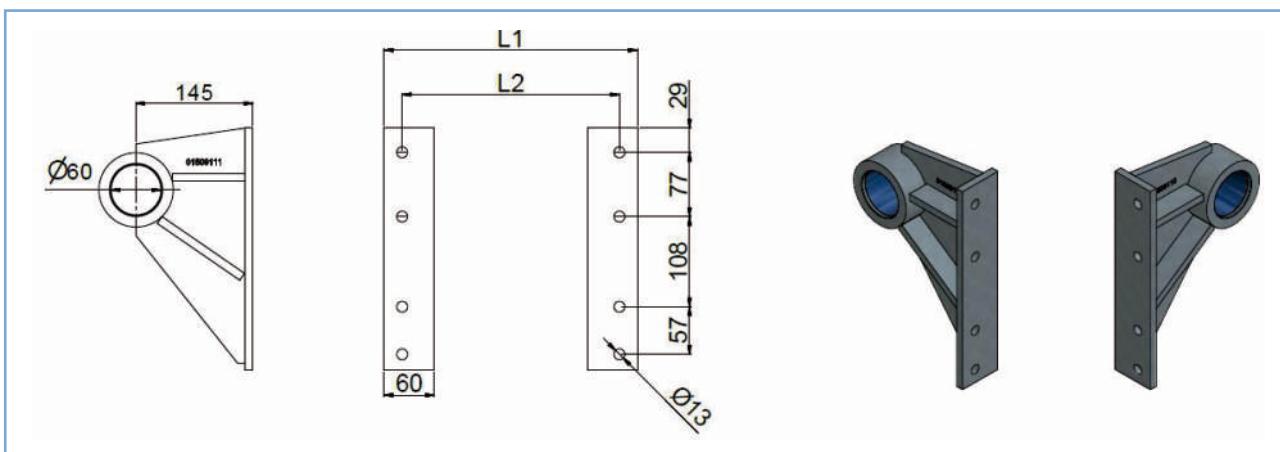

Part no.	Description	Kg
015 09 110	Lifting bracket right FC 110	4,5
015 09 111	Lifting bracket left FC 110	4,5
015 06 025	Chassis bracket FC/FE 110	6,7
015 07 512	Cylinder cradle FC/FE 110	25,2

Dimensions	L1	L2	L3	L4 *)	L5 *)
FC 110	304	261	301	138 in	240 in

*) in = inner position of slotted hole
out = outer position of slotted hole

We advise to mount the chassis and lifting brackets with the bolts to the outer side or the inner side of the slotted hole. In this way the washer and bolt, clamp on maximum surface and can absorb the largest forces.

Max. 1 mm clearance between each bracket and the cylinder.

FC/FE 110/118/129/137/149 (narrow cradle)

Part no.	Description	Kg
015 09 120	Lifting bracket right FC 110/129	6,5
015 09 121	Lifting bracket left FC 110/129	6,5
